General Billing Information

General Billing Information

National Provider Identifier (NPI)

The Health Insurance Portability and Accountability Act (HIPAA) requires that covered entities (i.e., health plans, health care clearinghouses, and those health care providers who transmit any health information electronically in connection with a transaction for which the Secretary of Health and Human Services has adopted a standard) use NPIs in standard transactions.

The Department of Health Care Policy and Financing (the Department) periodically modifies billing information. Therefore, the information in this manual is subject to change, and the manual is updated as new billing information is implemented.

Paper Claims

Electronic claims format shall be required unless hard copy claims submittals are specifically authorized by the Department. Requests may be sent to the Department's fiscal agent, Xerox State Healthcare, P.O. Box 90, Denver, CO 80201-0090. The following claims can be submitted on paper and processed for payment:

- Claims from providers who consistently submit 5 claims or fewer per month (requires approval)
- Claims that, by policy, require attachments
- Reconsideration claims

Paper claims do not require an NPI, but do require the Colorado Medical Assistance Program provider number. Electronically mandated claims submitted on paper are processed, denied, and marked with the message "Electronic Filing Required".

Electronic Claims

Instructions for completing and submitting electronic claims are available through the following:

- X12N Technical Report 3 (TR3) for the 837P, 837I, or 837D (wpc-edi.com/)
- Companion Guides for the 837P, 837I, or 837D in the Provider Services Specifications section of the Department's Web site.
- Web Portal User Guide (via within the Web Portal)

The Colorado Medical Assistance Program collects electronic claim information interactively through the Colorado Medical Assistance Program Secure Web Portal (Web Portal) or via batch submission through a host system.

Interactive Claim Submission and Processing

Interactive claim submission through the Web Portal is a real-time exchange of information between the submitter and the Colorado Medicaid Management Information System (MMIS). Colorado Medical Assistance Program providers may create and transmit HIPAA compliant 837P (Professional), 837I (Institutional), and 837D (Dental) claims electronically one at a time. These claims are transmitted through the Colorado Medical Assistance Program OnLine Transaction Processor (OLTP).

The OLTP reviews the claim information for compliance with Colorado Medical Assistance Program billing policy and returns a response to the submitter's personal computer about that single transaction. If the claim is rejected, the OLTP sends a rejection response that identifies the rejection reason.

If the claim is accepted, the submitter receives an acceptance message and the OLTP passes accepted claim information to the Colorado MMIS for final adjudication and reporting on the Colorado Medical Assistance Program Provider Claim Report (PCR).

The Web Portal contains online training, user guides and help that describe claim completion requirements, a mechanism that allows the user to create and maintain a data base of frequently used information, edits that verify the format and validity of the entered information, and edits that assure that required fields are completed.

Because a claim submitter connects to the Web Portal through the Internet, there is no delay for "dialing up" when submitting claims. The Web Portal provides immediate feedback directly to the submitter. All claims are processed to provide a weekly Health Care Claim Payment/Advice (Accredited Standards Committee [ASC] X12N 835) transaction and/or a PCR containing information related to submitted claims. The Web Portal provides access to the following reports through the File and Report Service (FRS):

- Accept/Reject Report
- Provider Claim Report
- Health Care Claim Payment/Advice (ASC X12N 835)
- Managed Care Reports such as Primary Care Physician Rosters
- Prior Authorization Letters

Users may also inquire about information generated from claims submitted via paper and through electronic data submission methods other than the Web Portal. Other inquiry options include:

- Eligibility Inquiry (interactive and batch)
- Claim Status Inquiry
- PAR Status Inquiry

Claims may be adjusted, edited and resubmitted, and voided in real time through the Web Portal. Access the Web Portal at colorado.gov/hcpf ➡ Provider Services. For help with claim submission via the Web Portal, please choose the *User Guide* option available for each Web Portal transaction. For additional electronic billing information, please refer to the appropriate Companion Guide located in the Provider Services Specifications section.

Batch Electronic Claim Submission

Batch billing refers to the electronic creation and transmission of several claims in a group. Batch billing systems usually extract information from an automated accounting or patient billing system to create a group of claim transactions. Claims may be transmitted from the provider's office or sent through a billing vendor or clearinghouse.

All batch claim submission software must be tested and approved by the Department's fiscal agent.

Any entity sending electronic transactions through the fiscal agent's Electronic Data Interchange (EDI) Gateway for processing where reports and responses will be delivered must complete an EDI enrollment package. This provides EDI Gateway the information necessary to assign a Logon Name, Logon ID, and Trading Partner ID, which are required to submit electronic transactions, including claims.

An enrollment package may be obtained by contacting the Department's fiscal agent or by downloading it from the Provider Services EDI Support section.

The X12N 837 Professional (837P), Institutional (837I), or Dental (837D) transaction data will be submitted to the EDI Gateway, which validates submission of American National Standards Institute (ANSI) X12N format(s). The TA1 Interchange Acknowledgement reports the syntactical analysis of the interchange header and trailer. If the data is corrupt or the trading partner relationship does not exist within the MMIS, the interchange will reject and a TA1 along with the data will be forwarded to the State Healthcare Clearinghouse (SHCH) Technical Support for review and follow-up with the sender. An X12N 999 Functional Acknowledgement is generated when a file that has passed the header and trailer check passes through the SHCH.

If the file contains syntactical error(s), the segment(s) and element(s) where the error(s) occurred will be reported. After validation, the SHCH will then return the X12N 835 Remittance Advice containing information related to payees, payers, dollar amount, and payments. These X12N transactions will be returned to the Web Portal's FRS for retrieval by the trading partner, following the standard claims processing cycle.

Testing and Vendor Certification

Completion of the testing process must occur prior to submission of electronic batch claims to EDI Gateway. Assistance from EDI Gateway business analysts' is available throughout this process. Each test transmission is inspected thoroughly to ensure no formatting errors are present. Testing is conducted to verify the integrity of the format, not the integrity of the data; however, in order to simulate a production environment, EDI Gateway requests that submitters send real transmission data.

The number of required test transmissions depends on the number of format errors on a transmission and the relative severity of these errors. Additional testing may be required in the future to verify any changes made to the MMIS have not affected provider submissions. Also, changes to the ANSI formats may require additional testing.

In order to expedite testing, EDI Gateway requires submitters to submit all X12N test transactions to EDIFECS prior to submitting them to EDI Gateway. The EDIFECS service is free to providers to certify X12N readiness. EDIFECS offers submission and rapid result turnaround 24 hours a day, 7 days a week. For more information, go to edifecs.com.

Providers must read the procedure descriptions carefully to assure that the proper billing unit is applied. **Home & Community Based Services** Combine units of services for a single procedure code for the billed time period on one detail line. Dates of service do not have to be reported separately. Late Bill Override Date

For electronic claims, a delay reason code must be selected and a date must be noted in the "Claim Notes/LBOD" field.

Valid Delay Reason Codes

1 Proof of Eligibility Unknown or Unavailable

3 Authorization Delays

7 Third Party Processing Delay

8 Delay in Eligibility Determination

9 Original Claim Rejected or Denied Due to a Reason Unrelated to the Billing Limitation Rules

11 Other

The Late Bill Override Date (LBOD) allows providers to document compliance with timely filing requirements when the initial timely filing period has expired. Colorado Medical Assistance Program providers have 120 days from the date of service to submit their claim. For information on the 60-day resubmission rule for denied/rejected claims, please see the General Provider Information manual in the Provider Services Billing Manuals section.

Making false statements about timely filing compliance is a misrepresentation and falsification that, upon conviction, makes the individual who prepares the claim and the enrolled provider subject to fine and imprisonment under state and/or federal law.

Sterilizations, Hysterectomies, and Abortions (continued) 	**Hysterectomies** Hysterectomy is a benefit of the Colorado Medical Assistance Program when performed solely for medical reasons. Hysterectomy is not a benefit of the Colorado Medical Assistance Program if the procedure is performed solely for the purpose of sterilization, or if there was more than one purpose for the procedure and it would not have been performed but for the purpose of sterilization. **The following conditions must be met for payment of hysterectomy claims under the Colorado Medical Assistance Program**. These claims must be filed on paper. ♦ Prior to the surgery, the person who secures the consent to perform the hysterectomy must inform the patient and her representative, if any, verbally and in writing that the hysterectomy will render the patient permanently incapable of bearing children. ♦ The patient and her representative, if any, must sign a written acknowledgment that she has been informed that the hysterectomy will render her permanently incapable of reproducing. The written acknowledgment may be any form created by the provider that states specifically that, "I acknowledge that prior to surgery, I was advised that a hysterectomy is a procedure that will render me permanently incapable of having children." The acknowledgment must be signed and dated by the patient. A written acknowledgment from the patient is not required if: ♦ The patient is already sterile at the time of the hysterectomy, or ♦ The hysterectomy is performed because of a life-threatening emergency in which the practitioner determines that prior acknowledgment is not possible. If the patient's acknowledgment is not required because of the one of the above noted exceptions, the practitioner who performs the hysterectomy **must certify in writing**, as applicable, one of the following: ♦ A signed and dated statement certifying that the patient was already sterile at the time of hysterectomy and stating the cause of sterility; ♦ A signed and dated statement certifying that the patient required hysterectomy under a life-threatening, emergency situation in which the practitioner determined that prior acknowledgment by the patient was not possible. The statement must describe the nature of the emergency.

Billing Instruction Detail	Instructions
Sterilizations, Hysterectomies, and Abortions (continued) 	A copy of the patient's written acknowledgment or the practitioner's certification as described above must be attached to all claims submitted for hysterectomy services. A suggested form on which to report the required information is located in Appendix J. Providers may copy this form, as needed, for attachment to claim(s). Providers may substitute any form that includes the required information. The submitted form or case summary documentation must be signed and dated by the practitioner performing the hysterectomy. The surgeon is responsible for providing copies of the appropriate acknowledgment or certification to the hospital, anesthesiologist, and assistant surgeon for billing purposes. **Claims will be denied if a copy of the written acknowledgment or practitioner's statement is not attached.** **Abortions** **Induced abortions** Therapeutic legally induced abortions are a benefit of the Colorado Medical Assistance Program when performed to save the life of the mother. The Colorado Medical Assistance Program also reimburses legally induced abortions for pregnancies that are the result of sexual assault (rape) or incest. Because of the attachment requirement, claims for legally induced abortions must be submitted on paper and must **not** be electronically transmitted. Claims for spontaneous abortions (miscarriages), ectopic, or molar pregnancies are not affected by these regulations. The following procedure codes are appropriate for identifying induced abortions: 59840 59841 59851 59852 59850 59855 59856 59857 Diagnosis code ranges: 635.00-635.92 637.00-637.92 Surgical diagnosis codes: 69.01 69.51 69.93 74.91 75.0
